

# TECHNICAL DATA

## Clean Up Solvent

### Description

**Clean Up Solvent** is used for cleaning up equipment and tools. **Clean Up Solvent** contains flammable solvents that have excellent dissolving power on uncured epoxy materials.

### Areas of application

- Cleaning of mixing tools
- Cleaning mixing bowls
- Cleaning of trowel, brushes

### Application directions

Wash tools and equipment using **Clean Up Solvent**. Rinse off tools and equipment with warm soapy water. **Clean Up Solvent** is effective only if the epoxy is uncured. **Clean Up Solvent** should not be used for thinning epoxies or cleaning hands.

### Caution

- Care should be taken to avoid the solvent in contact with the skin.
- **Clean Up Solvent** contains flammable solvent hence it should be kept away from naked flames, sparks etc.
- The lids of **Clean Up Solvent** container should be kept closed when not in use.
- Use gloves and half face masks while handling **Clean Up Solvent**.

### Storage and Shelf life

Store in dry conditions between 10°C and 25°C, away from sources of heat and naked flames. Protect from frost. When stored in original sealed containers the minimum shelf life is 2 years.

### Packaging

**Clean Up Solvent** is available in 4 litre and 20 litre drums.
